

# 500 Class 10

<https://thomaseLove.github.io/500-2024/>

2024-03-28

# Today's OSIA Presentations

| 1st Reader | 2nd Reader | Manuscript   |
|------------|------------|--|
| Morgan     | Lydia      | Cho M and Lee CH 2022 <a href="#">Childhood Maltreatment and Repeat Offending in Juvenile Delinquents: A Propensity Score Matched-Control Study</a> , with supplement <i>Youth &amp; Society</i> |
| Karlo      | Miza       | Hersh C et al. 2020 <a href="#">Effect of switching from natalizumab to moderate- vs high-efficacy DMT in clinical practice</a> , with supplement <i>Neurology: Clinical Practice</i>            |
| John       | Chris      | Lehr CJ et al. 2020 <a href="#">The impact of change in definition of increased-risk donors on survival after lung transplant</a> , with commentary <i>J Thorac Cardiovasc Surg</i>              |

# Rosenbaum Chapter 9

- Are Small Daily Doses of Alcohol Beneficial?
- Oncologists vs. Cardiologists
- A dissenting voice from a new tactic: Mendelian Randomization
- The Answer might be Complex; A Traditional Toxin; Total Mortality
- Is Part or All of the Supposed Heart Benefit Simply a Mistake?

So what do we do?

- What was the most important thing?
- What was the muddiest, most confusing thing?

# Reminders for Next Week

See the [Class 10 README](#)

- No office hours on Monday or Wednesday 4/1 and 4/3.
- Project Update - due from **everyone** at 9 AM Tuesday to Canvas
- OSIA slides from 1st readers (Anya, Akhil and Seth) by 1 PM Wednesday
- 2nd reader slides from Lent, Sara and Ava by 7:30 AM Thursday
- Video OSIA: 2nd reader slides due by class time from Akhil, Anya, Hala, John, Justin, Karlo, Morgan, Naji, Orsino, Sam, Seth, Sid and Sriram.
- We'll (briefly) review the rest of the Rosenbaum book (Postscript and Glossary, primarily, and a couple of thoughts on Further Reading)
